The Chemical Age

Index to Volume XXXV. July—December, 1936

A

Accidents, 147, 148, 157, 171, 258, 345, 470, 489, 514, 531
Accidents and Poisoning, Industrial: Report of the Chief Inspector of Factories, 167, 185
Accidents in the Chemical Industry: Experience in the United States during 1935, 142
Accident Prevention in a Chemical Works, R. E. Tugman, 289, 290
Accounting, Materials and Stores: Advantages of the Slip System, S. Howard Withey, 310
Advertising Association Cruise, The, 59, 78, 357
Advertising, Advances in, 357
Agglutinating Value of Coal, 378
Agriculture, Empire Palace of, 518
Air Raid Precautions, 430
Alcohol in Ireland, Industrial, 39, 464
Aliphatic Alcohols, 377
Alkali Inspector's Annual Report, 202
Aluminium as Constructional Material for Containers, 163
Aluminium Tubes and Pipes, 72
American Chemical Society (The Hydrogenation of Coal), 223; Meeting at Pittsburg, 247
Ammonium Sulphate Sale Dispute, 98
Analytical Chemistry, A Refresher Lecture, 376
Andersonian Chemical Society, The, 450
Anglo-Iranian Oil Co.: Chemical Staff Conference at Sunbury, 119; Oil Drilling at Henfield, 120
Argentina: Soda Ash Imports, 57
Arsenic Utilisation in Sweden, 441
Artificial Resins, Increasing Applications of (H. V. Potter at the B.S.A.), 502
Artificial Transmutations, 463
Association of British Chemical Manufacturers, 329
Atmospheric Pollution, 487
Automatic Regulators: Papers Presented at the Chemical Engineering Group Conference, 349
